

FAHAD CHANDIO

AI Solutions Engineer | Automation, Voice AI & AI-Driven Systems

Dubai, UAE (UTC+4) • +971 55 688 0237 • fhdchnd@gmail.com • linkedin.com/in/fchandio • fhdchnd.github.io

Open to full-time roles: UAE on-site/hybrid, or US/Europe remote from Dubai (8+ hrs daily overlap available). Also open to contract/C2C.

7x ROAS • \$100K+ expansion revenue • 35% retention lift • 60+ enterprise & government accounts • production systems: voice AI, SIP telephony, LLM orchestration

PROFESSIONAL SUMMARY

AI Solutions Engineer with 6+ years of enterprise and SMB account management across North America, EMEA, and the GCC, and 2+ years designing and shipping production automation and AI systems. I sit at the intersection most technical hires don't cover: I've run the client relationship, the CRM, and the reporting - then built the automation and AI systems those accounts actually needed instead of filing a ticket with an engineering team. Recent work: a SIP-based outbound calling platform built end-to-end across Cloudflare and Google Apps Script, a conversational voice AI agent (Vapi) deployed into a live customer-facing workflow, and an LLM orchestration layer with multi-model fallback and content-safety guardrails. Not a software engineer by training - the value is deploying real systems into real operational gaps, not writing greenfield production codebases.

CORE SKILLS

AI & Automation: Voice AI agent design & deployment (Vapi), LLM orchestration & prompt engineering (Anthropic Claude, OpenRouter, Perplexity APIs), RAG / vector search (LangChain, ChromaDB), workflow automation (Make, n8n), Python, REST API integration

Systems & Infrastructure: Cloudflare (Pages, Workers, KV), Google Apps Script, Railway, Supabase (Postgres, Edge Functions/Deno), Git/GitHub, Docker & GitLab CI/CD (applied hands-on to internal pipeline projects)

CRM & RevOps: Salesforce (Classic & Lightning), HubSpot (Academy-trained), Oracle NetSuite, Power BI, pipeline & forecasting operations, RevOps process design

GTM & Growth Systems: Signal-based / intent-led outbound, Clay & Apollo enrichment, Instantly cold-email infrastructure, ICP modeling & lead scoring, Meta & TikTok Ads, SEO/AEO

Languages: English (professional), Urdu & Sindhi (native), Arabic (conversational - reads/writes fluently)

SYSTEMS BUILT (SELECTED)

- **SIP-Based Outbound Calling Platform:** Designed and shipped a power-dialer system end-to-end across Cloudflare Pages/Workers, Google Apps Script, and Telnyx's carrier APIs - timezone-aware call queueing, automatic voicemail detection, and real-time transcription. Root-caused a live production outage directly via the carrier's call-detail-record API rather than trial-and-error, and diagnosed cross-device WebRTC/audio failures invisible to standard error logging.
- **Conversational Voice AI Deployment:** Integrated and prompt-engineered a Vapi-based voice agent into a live customer-facing calling workflow, including explicit scope/pricing guardrails and natural-conversation tuning for a non-technical end audience.
- **LLM Orchestration Layer:** Built a Supabase Edge Function pipeline routing across a 6-model fallback chain with output-quality detection and rejection logic (catching planning-style/off-format model output before it reached the user), plus a pre-launch content-safety guard for age/identity edge cases.

- **Signal-Based Data Pipelines:** Python/Railway pipelines converting public regulatory and procurement data (EPA, OSHA, FDA, federal contract awards) into enriched, prioritized outbound pipeline, paired with Clay/Apollo enrichment and Instantly-run cold-email infrastructure.

PROFESSIONAL EXPERIENCE

Media Solutions Manager - The Vantage

Dubai, UAE | Nov 2023 – Nov 2025

- Managed programmatic and multi-channel media (digital, print, OOH) across EMEA for The Economist, Politico, and TIME, owning the motion from proposal to delivery for enterprise and government accounts including NEOM and Etisalat.
- Architected Power BI and Oracle NetSuite sales-intelligence dashboards that informed pricing, account prioritization, and executive reporting.
- Automated CRM hygiene, lead routing, and cross-team workflows with Make, n8n, and ClickUp, cutting manual coordination across sales, delivery, and account management.

Account Manager (US Accounts, Remote) - The Social Nerds

Remote | May 2022 – Aug 2023

- Ran a 60+ account North American book (fintech, sporting goods, wealth management, tech) end to end, including Salesforce (Classic & Lightning) on select accounts, averaging 7x ROAS on Meta/TikTok campaigns.
- Generated \$100K+ in upsell and expansion revenue through data-driven QBRs and renewal planning, driving a 35% retention lift.

Senior Account Executive - Crystallite Pakistan

Remote | Mar 2021 – May 2022

- Managed 50+ recurring client accounts and lifted retention 40% through data-driven execution and stronger operating rhythms.
- Led SEO, social automation, and digital strategy across 15 brands while managing a team of 5; built the content marketing function from scratch.

Account Executive - Adept Tech Solutions

Remote | Aug 2020 – Apr 2021

- Audited and restructured onboarding, retention, and upsell workflows, improving delivery visibility and operational consistency.

Tech Author - Wccftech & Appuals

Remote | Feb 2019 – Jul 2020

- Published research-driven technical guides for a global readership; built SEO and affiliate content workflows that grew organic discoverability and monetization.

Customer Success Manager - SquareTrade (Allstate)

Remote | Nov 2017 – Jan 2019

- Used Salesforce to triage inquiries for a US insurance program, coordinate service depots, and improve claim-processing productivity; trained new-hire cohorts on workflows and SLAs.

EDUCATION & TRAINING

Harvard University (edX) - CS50: Introduction to Computer Science (C, Python, SQL, algorithms) | 2024

HubSpot Academy - CRM & Inbound training

SZABIST - Bachelor of Media Science, Film Studies | GPA 3.34
