

FAHAD CHANDIO

Technical Project Manager | Agile & Cross-Functional Delivery | Strategy & Process Consulting

Dubai, UAE • +971 55 688 0237 • fhdchnd@gmail.com • linkedin.com/in/fchandio • fhdchnd.github.io

8+ years cross-functional delivery • Shipped 3 production technical systems solo • Jira, Confluence, ClickUp
• NEOM, Etisalat, The Economist accounts • 40% retention lift via process redesign

PROFESSIONAL SUMMARY

Technical project manager and strategy-minded operator with 8+ years running cross-functional delivery for enterprise accounts and shipping production systems end to end. I've led Agile and Waterfall-style delivery using Jira, Confluence, and ClickUp, from stakeholder discovery through rollout, including architecting and shipping a live AI-powered platform solo through three infrastructure pivots and real production fixes. I turn scattered requirements into a working plan and keep every stakeholder aligned to it.

CORE SKILLS

Project & Program Delivery: Agile, Scrum, Kanban, and Waterfall project delivery, sprint planning, backlog management, stakeholder alignment, risk and timeline management, multi-project execution against deadlines

Tools: Jira, Confluence, ClickUp, Notion, Google Workspace

Data & Reporting: Power BI, Oracle NetSuite, Salesforce, HubSpot, KPI tracking, executive reporting, dashboard design

Technical Delivery: Full-stack build experience (React, TypeScript, Python, Google Apps Script, Cloudflare Workers), REST API integration, architecture decisions under real infrastructure and cost constraints

Process & Strategy: Workflow audits and redesign, cross-functional coordination across sales, delivery, and operations, process automation (Make, n8n), business case development

TECHNICAL DELIVERY & SYSTEMS SHIPPED (SELECTED)

- **Ringpath Dialer (Power-Dialer & CRM Platform):** Owned technical delivery end to end for a production power-dialer and CRM system: scoped requirements, evaluated and pivoted hosting architecture three times under real cost and infrastructure constraints, shipped a React/TypeScript frontend and Google Apps Script backend, and resolved production bugs found through live testing.
- **CareLine AI:** Scoped, positioned, and shipped a compliant AI voice agent product for home care agencies, deliberately redesigning the offer to stay out of regulated data territory while still solving the client's real problem.
- **AI Visibility Audit Engine (Personafyed):** Architected and shipped a production system orchestrating five external APIs into a single automated reporting pipeline used as a client-facing deliverable.

PROFESSIONAL EXPERIENCE

Media Solutions Manager, The Vantage

Dubai, UAE | Nov 2023 – Nov 2025

- Coordinated multi-stakeholder delivery timelines across sales, ad operations, and account management using ClickUp for workflow tracking, keeping every account on schedule.
- Built Power BI and Oracle NetSuite reporting used directly in executive decision-making and account prioritization for accounts including NEOM, Etisalat, and The Economist.
- Automated CRM and cross-team workflows with Make and n8n, removing manual coordination steps across teams.

Account Manager, The Social Nerds*Remote (Toronto, Canada) | May 2022 – Aug 2023*

- Managed a 60+ client book end to end, running renewal planning and quarterly reporting cadences across a distributed, multi-timezone team.
- Delivered 7x ROAS and \$100K+ in expansion revenue by turning campaign data into decisions clients acted on.

Senior Account Executive, Crystallite Pakistan*Karachi, Pakistan | Mar 2021 – May 2022*

- Built and led a cross-functional content delivery function from scratch across 15 brands, managing a team of 5 against recurring deadlines.
- Lifted retention 40% through consistent reporting rhythms and process discipline.

Account Executive, Adept Tech Solutions*Karachi, Pakistan | Aug 2020 – Apr 2021*

- Audited and redesigned onboarding, retention, and upsell workflows end to end, improving delivery visibility and operational consistency across the account book.

Tech Author, Wccftech & Appuals*Remote | Feb 2019 – Jul 2020*

- Researched and published technical guides for a global readership, managing multiple concurrent deliverables against publishing deadlines.

Customer Success Manager, SquareTrade (Allstate)*Karachi, Pakistan | Nov 2017 – Jan 2019*

- Coordinated service depots and triage workflows in Salesforce for a US insurance program; trained and onboarded new-hire cohorts on process and SLAs.
